DESCRIPTION OF LOGO OF SWAMI RAMA HIMALAYAN UNIVERSITY

Starting from the top, the four pillared building is resting on the foundation of an open book. The four pillars represent the four Purusharthas or aims of human life, namely, Dharma (Ethical living), Artha (Material Prosperity), Kama (Emotional Fulfilment) and Moksha (Emancipation) and the open book indicates the foundation of learning. Taken together, this part of the logo represents an institution of learning that can help the students achieve the four aims of life by schooling them in moral, practical, emotional and spiritual values and knowledge

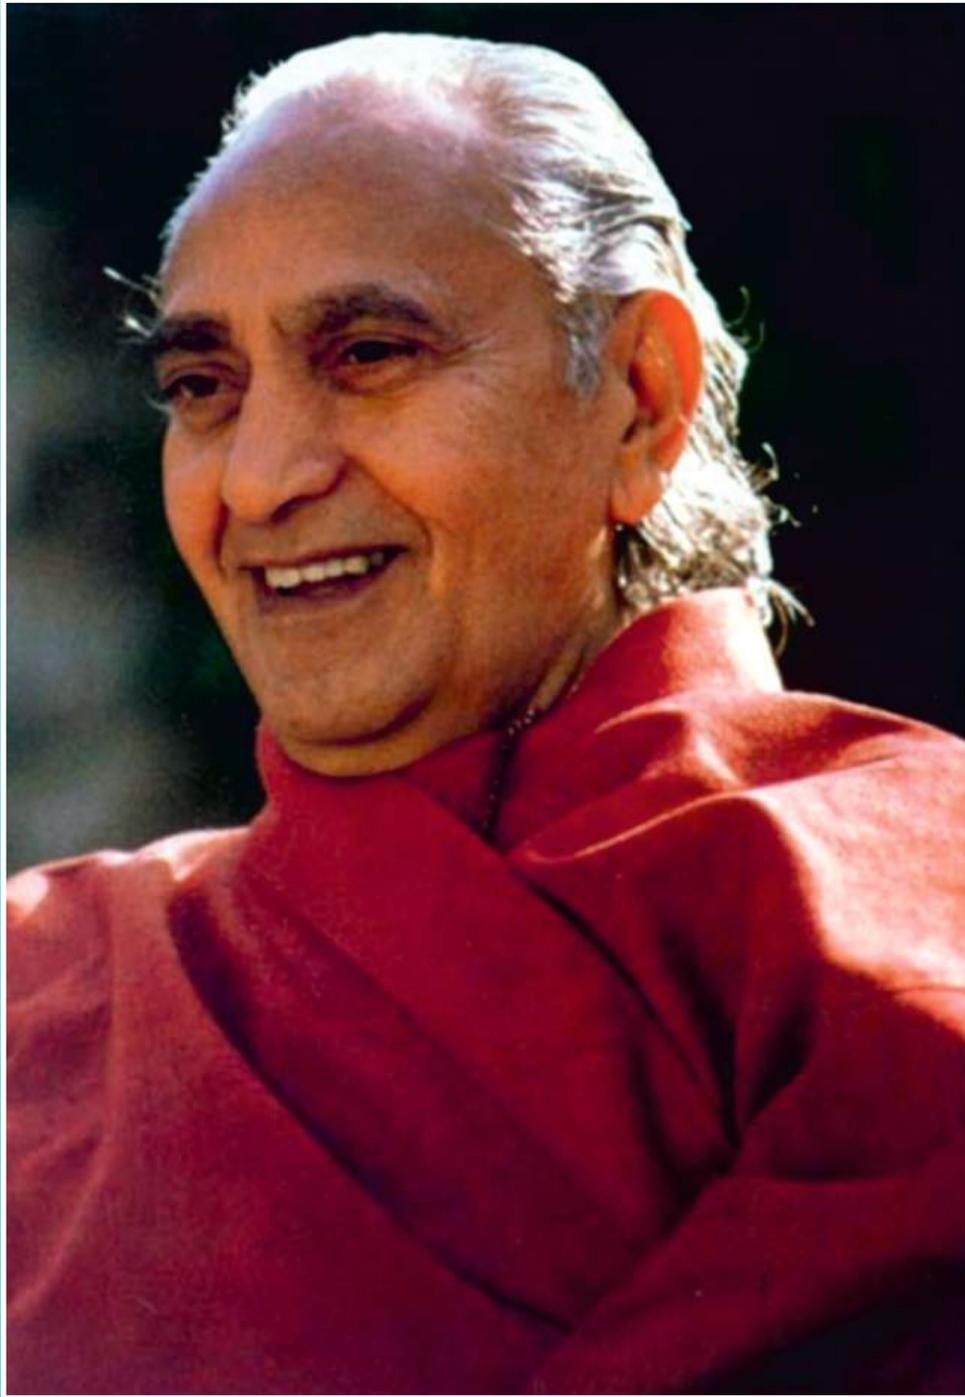

The Sanskrit words "Yogaha Karamasu Kaushalam", is from the Bhagavad Gita and defines Yoga as perfection in action. H.H. Swami Rama was an ardent advocate of acting skilfully, selflessly and lovingly. The lamp at the center signifies the light of knowledge.

The swan is a classical symbol in India of buddhi (faculty of discrimination), as it is believed that a swan can separate milk from a mixture of milk and water. The University would like to impart this quality of buddhi to its students

The lotus is another classical Indian symbol signifying being rooted in the practical world but blossoming into the light, like the lotus, which grows in marshy soil but blossoms facing the sun above. The saffron color of the lotus is symbolic of going beyond the outer world to the inner spiritual world.

The words "Love, Serve, Remember" represent the motto given to us by H.H. Swami Rama. He exhorted us to serve our fellow beings lovingly, remembering that the same ONE dwells in each of us and that service to our fellow beings is the best form of worship of the Divine.

The shield represents our protection by knowledge in the battle against ignorance.

H.H. Dr. Swami Rama
A journey from finite to infinite

GRATITUDE

Swami Rama Himalayan University is happy to bring out its ninth Annual Report which is a comprehensive view of the academic year 2021-2022 and brings together the vast range of initiatives, studies, teaching, and research activities taking place across the University. Behind the success of every University, there lie cumulative efforts of innumerable people who have contributed immensely in different ways.

Firstly, we would like to acknowledge with fond remembrance our Gurudev His Holiness Dr. Swami Rama who by his visionary forethought had envisioned the seeds to serve this for people in great medical, economic, and social need.

We express heartfelt gratitude to all the members of "Himalayan Institute Hospital Trust" (HIHT), the Promoting Society of SRHU, for their enthusiasm and dedicated work which have made this University grow year upon year.

Due accomplishments are attributed, in large, to the Hon'ble Visitor of the University.

We highly commend the contribution, guidance and insightful leadership of Tan Sri Datuk Dr. Mohan Swami, Hon'ble Chancellor, who had always been a source of inspiration to scale new heights of excellence.

Our sincere acknowledgement to all the members of Board of Governors, Board of Management and other authorities for helping us in achieving excellence throughout the journey.

We are grateful to the University Grants Commission, Ministry of Human Resource Development and Government of Uttarakhand, for their mentoring, guidance and constant support. We are thankful to the dedicated efforts of university officers and executors of daily affairs who enabled the University attain new landmarks.

We extend our sincere thanks to the Deans, Principals, Administrators, Heads of Departments, Faculty Members and Non-teaching staff of all the constituent colleges/schools/academic units for their constant support and co-operation.

The University wholeheartedly acknowledges the support and co-operation by one and all in its accomplishments.

Dr. Vijay Dhasmana
Vice Chancellor

SWAMI RAMA HIMALAYAN UNIVERSITY

Welcomes You

VISION

To be recognized as a premier university through providing quality education and healthcare in a manner that is holistic and evolutionary.

VALUES

- Integrity
- Excellence
- Innovation
- Empowerment
- Trust
- Service

MISSION

To transform lives by nurturing excellence in the creation and dissemination of knowledge through education, research, innovation and technology besides providing multidimensional humanitarian opportunities for social upliftment in accordance with the ideals of Swami Rama.

Broad objective

- To provide for instruction, teaching, training and research in such branches of study as the University deems appropriate including medical sciences, dental sciences, nursing, pharmacy, paramedical and allied health sciences, science, engineering & technology, biosciences, yoga sciences, management, rural development, humanities and other branches of higher education.

Specific Objectives

- (a) To be an agency of change, fostering creativity, innovation & adaptability for advancement and dissemination of knowledge without compromising on quality.
- (b) To strive for academic excellence, quality research and exemplary service to the community.
- (c) To set international standards in delivery of education and pioneer viable alternatives to conventional learning.
- (d) To formulate a policy based on quasi-market principles in keeping with the structural reforms responsive to industry driven demand and employability.

EVOLUTION OF UNIVERSITY

Swami Rama Himalayan University (SRHU) has been established by Himalayan Institute Hospital Trust (HIHT), Promoting Society of the University, under section 2(f) of UGC Act and enacted vide Uttarakhand Act No. 12 of 2013. The University has been founded by the Promoting Society to carry forward the legacy of its founder H.H. Dr. Swami Rama. This visionary sage conceived, designed and established HIHT to translate all his dream projects into reality for the benefit of mankind and who remains a guiding force for us in turning the barren land of the foothills of Himalayas into a medical and educational city.

The University purports to provide education, training and enable research in areas of medical sciences, dental sciences, nursing, pharmacy, paramedical & allied health sciences, science, engineering & technology, biotechnology, yoga sciences, management, rural development, humanities, law and other areas of higher education.

The University is self-financed and a 'Not for Profit University'. It is functional in an eco-friendly 200 acres lush green campus with residential and recreational facilities. The academic functioning is backed by a large faculty base consisting of intellectuals, academicians and researchers. The courses/programmes offered by SRHU concentrate on development of skill-based professionals & entrepreneurs and their capacity building for self-employment as well as generating employment for others. The University addresses the existing challenges by following a redressal approach for facilitating transformational changes by providing the power of education and knowledge.

In the first phase, SRHU became functional in 2013 with three constituent colleges/schools, namely, Himalayan School of Science & Technology (HSST), Himalayan School of Management Studies (HSMS) and Himalayan College of Nursing (HCN). Thereafter, with effect from 1st June 2014, Himalayan Institute of Medical Sciences (HIMS) with its 1200 bedded super-specialty hospital have been added as constituent college/academic unit of SRHU. The University had been conducting programs in Bio Sciences and Yoga Sciences under the Department of Bio Sciences and Department of Yoga Science & Holistic Health respectively. Thereafter, a need was felt to establish separate schools for Bio Sciences and Yoga Sciences so that these programs are brought under the ambit of respective schools. Thus, Himalayan School of Bio Sciences (HSBS) and Himalayan School of Yoga Sciences (HSYS) came into existence in the year 2017 and 2022 respectively as constituent academic units of the University. The University offers Undergraduate, Postgraduate, Super-specialties and Ph.D. programs in various disciplines.

Over the journey of ten years, the University has grown tremendously due to hardwork and commitment of the faculty & staff members.

The faculty members are actively involved in research projects which are either funded by the University or external agencies like ICMR, DST, UCOST, NIPCCID, RNTCP etc. Publication of research papers by faculty members is a regular process. Research publications of faculty members in numerous indexed national & international journals is on the increase every year. The University has created a healthy ecosystem for promoting research. Financial incentives are provided to the faculty members to encourage research and publications.

The University has a well-defined policy for the development of its faculty, under which financial support is provided to the faculty members for attending conferences, workshops, seminars, training sessions and other academic programmes nationally and internationally.

The students have ample of opportunities to carry out research projects under the able guidance of their mentors.

Meritorious students from financially weak background are provided financial assistance in the form of waiving-off their tuition fee by the University during the past five years. In addition, the University awards 'Merit cum Means Scholarship' to the students.

Last, but not the least, the University is actively involved in contributing meaningfully towards the growth of the State of Uttarakhand and Nation by providing education, training, research activities, effective healthcare services including super specialties at affordable cost under one roof and outreach activities for the social cause.

1	Anaesthesia	Preoperative chewing gum vs pericardial P6 point accupressure for attenuation of post-operative nausea and vomiting in patients undergoing laparoscopic cholecystectomy under general anaesthesia	Dr. Chirag Ahuja	Dr. Veena Asthana	2021
2	Anaesthesia	Evaluation of efficacy of atomization of different doses of dexmedetomidine used during endotracheal intubation to prevent postoperative sore throat in tympanomastoidectomy surgeries	Dr. Vinayak Saran	Dr. Divya Gupta	2021
3	Anaesthesia	Ultrasound guided pericapsular nerve group (PENG) block for postoperative analgesia following hip arthroplasty	Dr. Khagol Bhatnagar	Dr. Rohan Bhatia	2021
4	Anaesthesia	Efficacy of tramadol v/s tapentadol for prophylaxis of post spinal shivering in patients undergoing lower limb surgeries	Dr. Devangi Moudgil	Dr. Nidhi Kumar	2021
5	Anaesthesia	To compare erector spine plane block and intravenous lidocaine infusion on post operative pain outcomes in opioid free anaesthesia after lumbar disc surgeries	Dr. Shreya	Dr. Gurjeet Khurana	2021
6	Anaesthesia	Success and failure of extubation in exppreterm infants up to 37 weeks of age	Dr. Kumar Sagar	Dr. Parul Jindal	2021
7	Anaesthesia	Dexmedetomidine versus dexamethasone as an adjuvant to ropivacaine in ultrasound guided rectus sheath block for post analgesia in patients undergoing midline incisional laparotomy	Dr. Akshi Manohar	Dr. Abhimanyu Singh Pokhriyal	2021
8	Anaesthesia	To study and compare efficacy of anaesthesia premedication in the form of intranasal dexmedetomidine and ketamine v/s intranasal ketamine and midazolam in the paediatric age group	Dr. Tanmaya Sachdeva	Dr. Priya Ramakrishnan	2021
9	Anaesthesia	Ultrasound guided anterior quadratus lumborum block at the L2 level versus retro laminar block for analgesia in patients undergoing laparoscopic nephrectomy	Dr. Amrit Bhardwaj	Dr. Rohan Bhatia	2022
10	Anaesthesia	To compare the efficacy of nefopam and ketorolac on the incidence of catheter related bladder discomfort (CRBD) and pain scores post operatively in patients undergoing microdisectomy	Dr. Swapnil Sinha	Dr. Nidhi Kumar	2022

11	Anaesthesia	Evaluation and analysis of different laryngeal mask airway LMA blockbuster, LMA proseal and LMA Baska in terms of oropharyngeal leak pressure and post-operative sore throat in patient undergoing elective laparoscopic cholecystectomy	Dr. Mohd. Yusuf	Dr. Divya Gupta	2022
12	Anaesthesia	Tau-protein, neutrophil – to lymphocyte ratio, CRP to albumin ratio as predictive tolls for post-operative cognitive dysfunction in oncosurgical patients: single centre study	Dr. Girish Singh Rawat	Dr. Veena Asthana	2022
13	Anaesthesia	Comparison of efficacy of transdermal diclofenac, ketorolac and lignocaine patch for post-operative pain management in modified radical mastectomy patients and the consumption of intravenous fentanyl in first 24 hours post operatively via PCA pump	Dr. Sonali Mittal	Dr. Gurjeet Khurana	2022
14	Anaesthesia	Dexmedetomidine vs low molecular weight dextran as adjuvant to ropivacaine in ultrasound guided erector spine block for post-operative analgesia in total abdominal hysterectomy	Dr. Arnpriya Pal	Dr. Harish Singh	2022
15	Anaesthesia	The incidence of postoperative supraventricular arrhythmia in off pump coronary artery bypass grafting as a predictor for postoperative morbidity and mortality	Dr. Abhin Mohan	Dr. Deepak Oberoi	2022
16	Anaesthesia	Carbon footprints of sevoflurane v/s desflurane in the pediatric population: roadmap to green anaesthesia	Dr. Saumya Pant	Dr. Parul Jindal	2022
17	Biochemistry	Correlation of placental growth factor with severity of pre-eclampsia and fetomaternal outcome – a prospective observational study	Dr. Harmanpreet Kaur	Dr. Ruchira Nautiyal Dr. Anita Sharma	2022
18	Biochemistry	Estimation of cardiac troponin I for evaluation of cardiac dysfunction in children with seizures	Dr. Mandeep Singh Gill	Dr. Alpa Gupta Dr. Rakesh Kumar Dr. Kiran Bhat	2022
19	Biochemistry	A study of Vitamin D levels in newly diagnosed cases of childhood tuberculosis	Dr. Debajyoti Banerjee	Dr. B.P. Kalra Dr. Kiran Bhat Dr. Varuna Jethani	2021
20	Biochemistry	A study of serum zinc levels in children with acute lower respiratory tract infections	Dr. Saumya Dangwal	Dr. B.P. Kalra Dr. Kiran Bhat	2022

Library Report

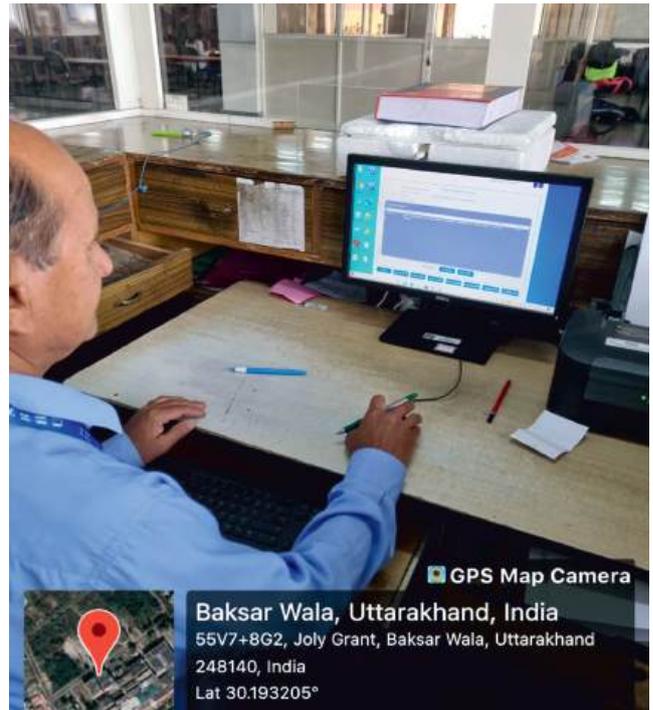

The University maintains four libraries for the use of its faculty, students, and staff members namely (1) Central Library (2) HSST Library (3) HSMS Library, and (4) HCN Library. The normal activities were resumed from August 2021 onwards. The details of activities of above libraries are given below.

NEW DEVELOPMENTS IN CENTRAL LIBRARY

RADIO FREQUENCY IDENTIFICATION (RFID) INSTALLATION: RFID system has been installed with one gate antenna system, one staff station reader, one self-check-in and checkout kiosk.

Gate Antenna System

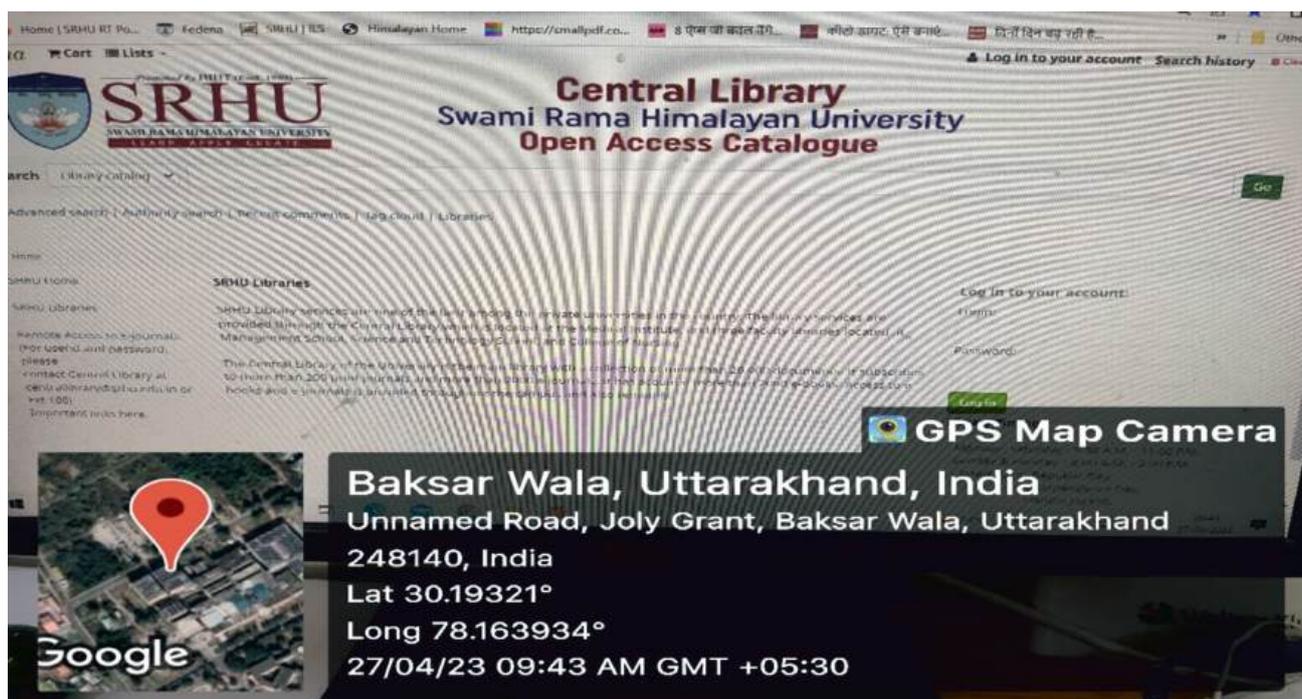

Staff Station Reader

Self-Check-in and Checkout Kiosk

INSTALLATION OF KOHA – INTEGRATED LIBRARY MANAGEMENT SYSTEM (ILMS): The Central Library has successfully installed KOHA – ILMS.

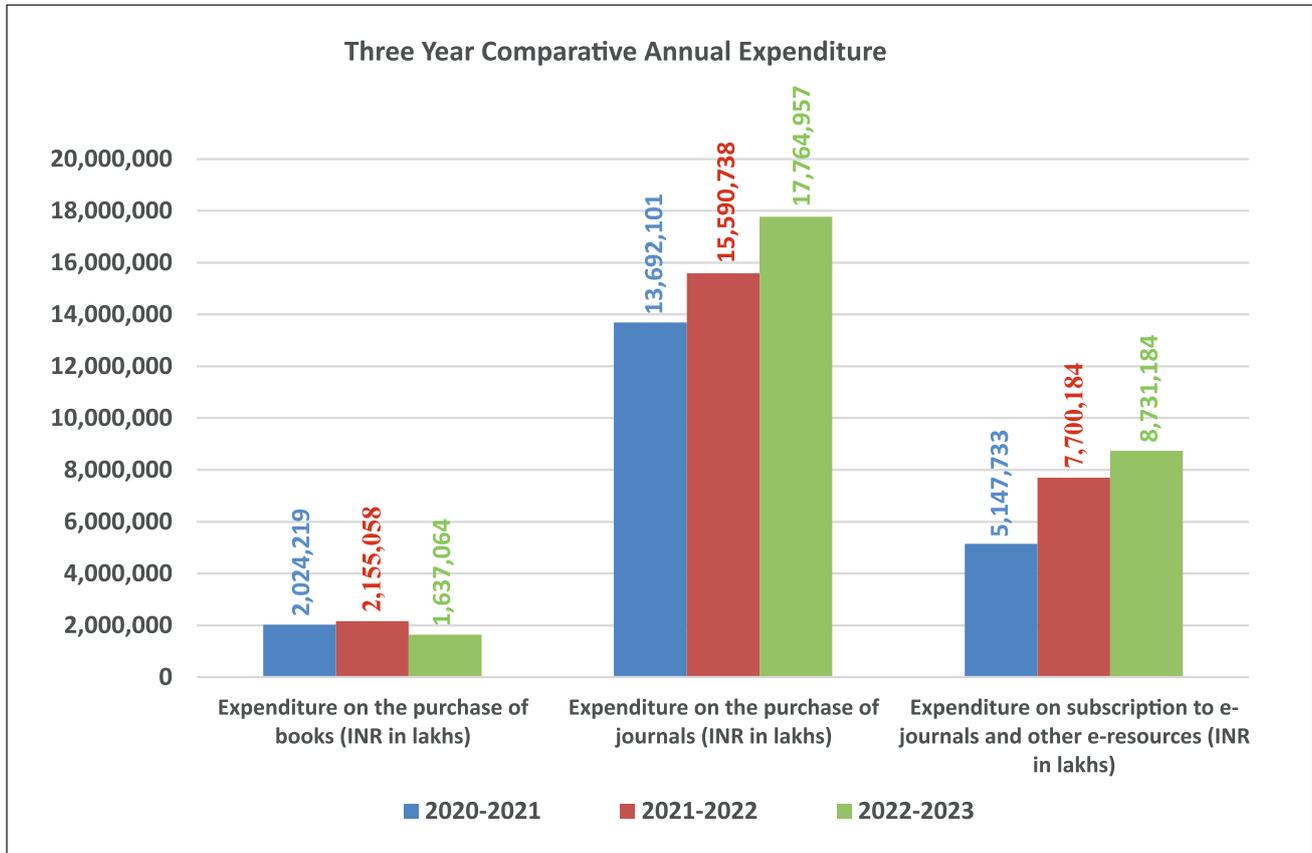

The following features of KOHA have been activated:

- 1 Online Public Access Catalogue (OPAC) available at IP address //14.139.239.46. (Pic 4)
- 2 Circulation module of KOHA has been successfully integrated with the middleware of RFID system. Issue and return of the books are being done using RFID and KOHA.
- 3 All the data pertaining to books and loan records of users in Fedena has been transferred to KOHA server. Another module of KOHA i.e., serial control is being customised to suit our requirements.
- 4 Foot falls of the visitors is being counted digitally using the gate antenna system.

ANNUAL EXPENDITURE OF ALL LIBRARIES ON BOOKS AND JOURNALS

A comparative graph representing three-year annual expenditure for the purchase of books and journals (including e-resources) is given below:

CENTRAL LIBRARY HIMALAYAN INSTITUTE OF MEDICAL SCIENCES

Himalayan Institute of Medical Science Library, known as the Central Library, is the oldest and biggest library of the University which caters to the needs of medical, nursing, biosciences, yoga, and paramedical students and faculty. The major activities of the Central Library are given below.

Collection Development

PRINT BOOKS: This library continued collection building in all areas of medical sciences, yoga sciences, engineering, biosciences, and management. The total print book collection of central library is now 22758. During the period under report, 909 copies of 363 titles costing Rupees 1638827.00 were added. All the above copies were classified, and their data was entered into the KOHA-Library Management System. The discipline wise additions are given below.

E-BOOKS: The e-book collection is 1486 with an addition of 399 e-books in the Year 2022-2023.

Journals : Journals are backbone of any university library collection. SRHU subscribes all journals necessary for its teaching and research activities. The library has followed the policy of reducing print journals since pandemic time and therefore, 6 print journals were Dropped and 12 new E-journals were subscribed. The back volumes of journals collection of the library have also grown to 8881 volumes with 2708 Indian and 6173 volumes of foreign titles. During the year 354 back-volumes of foreign journals and 95 Indian back-volumes were added. Details of subscription of print and e-journals are given in Table 2 and 3.

OTHER E-RESOURCES

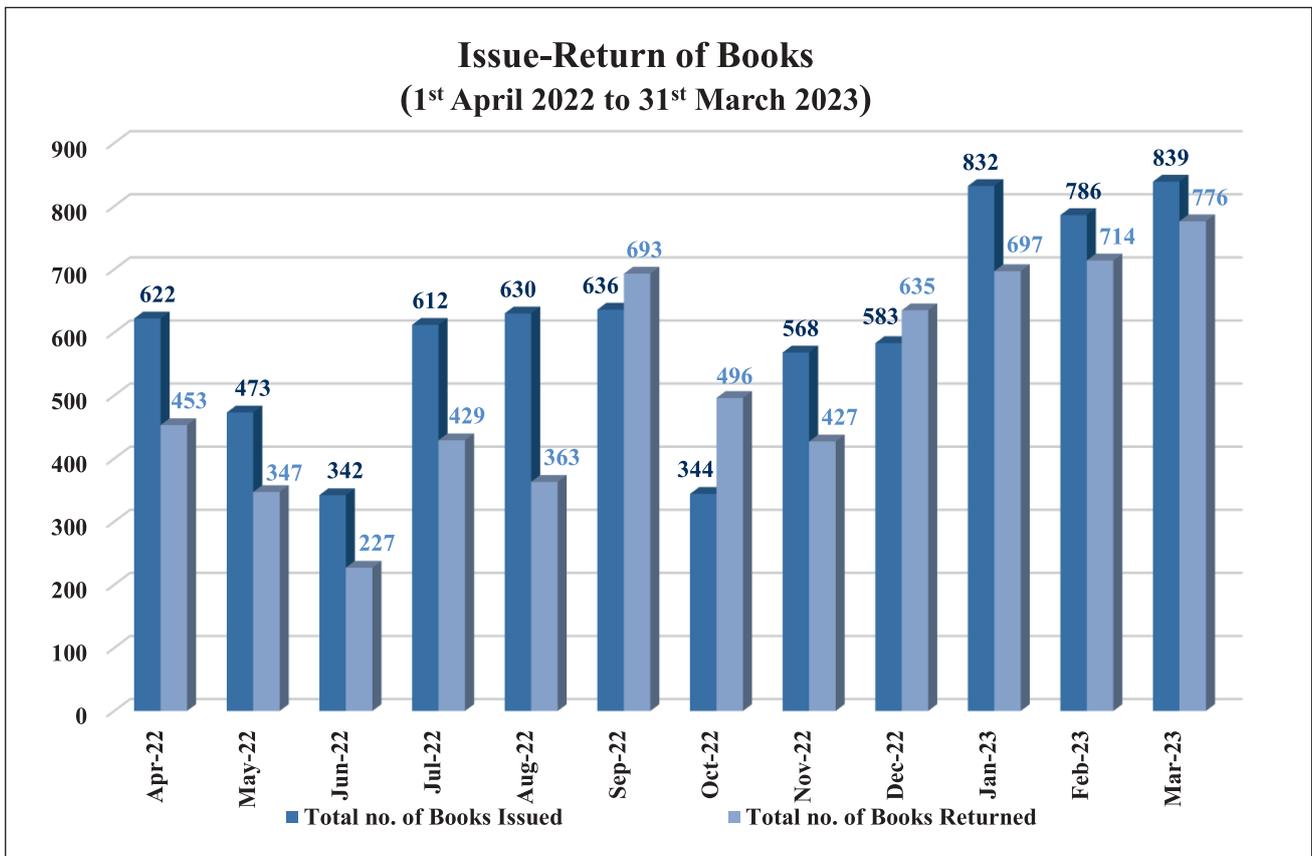

Subscription of Up-to-date : The important addition in central library was the subscription of Up-To-Date. Up-To-Date is an evidence-based clinical decision support resource that offers comprehensive, peer-reviewed content in 26 medical specialties. Used primarily at the point of care, Up-to-date is available online via computer or mobile device. With a subscription or site license, clinicians can access more than 12,800 topics (including text, graphics, and links to more than 495,000 references), graded recommendations, a select drug database and drug interactions tool (in partnership with Lexicomp®), calculators, and patient information.

Subscription of Medline Database : SRHU library subscribed to Medline database covering more than 29 million references to journal articles in life sciences with a concentration on biomedicine, and Lippincott Procedures covering more than 2200 modules around Nursing, Physical Therapy and Respiratory Therapy.

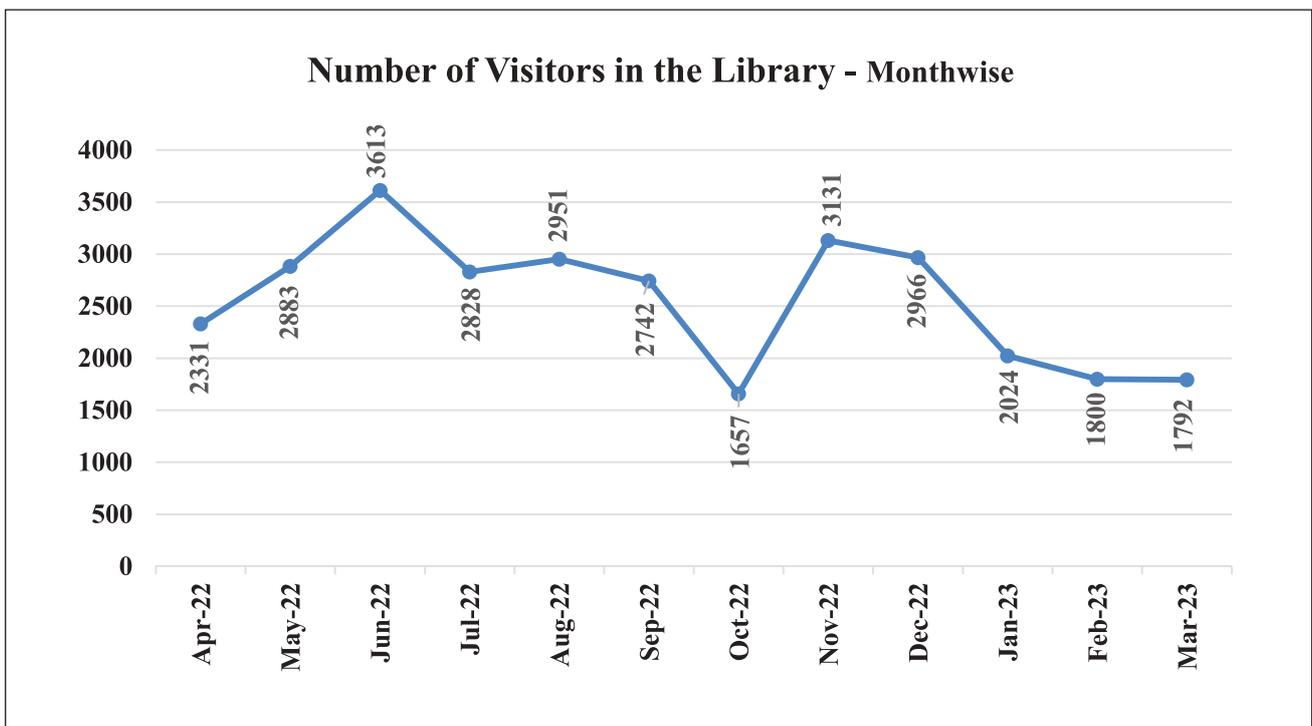

Provision of Remote Access to E-resources : To facilitate the access to e-resources, the Remotlog remote access tool was subscribed by the library in the year 2021 and renewed in 2022-23. Now all the E-resources can be accessed by faculty and staff from anywhere.

BOOK CIRCULATION / VISITS

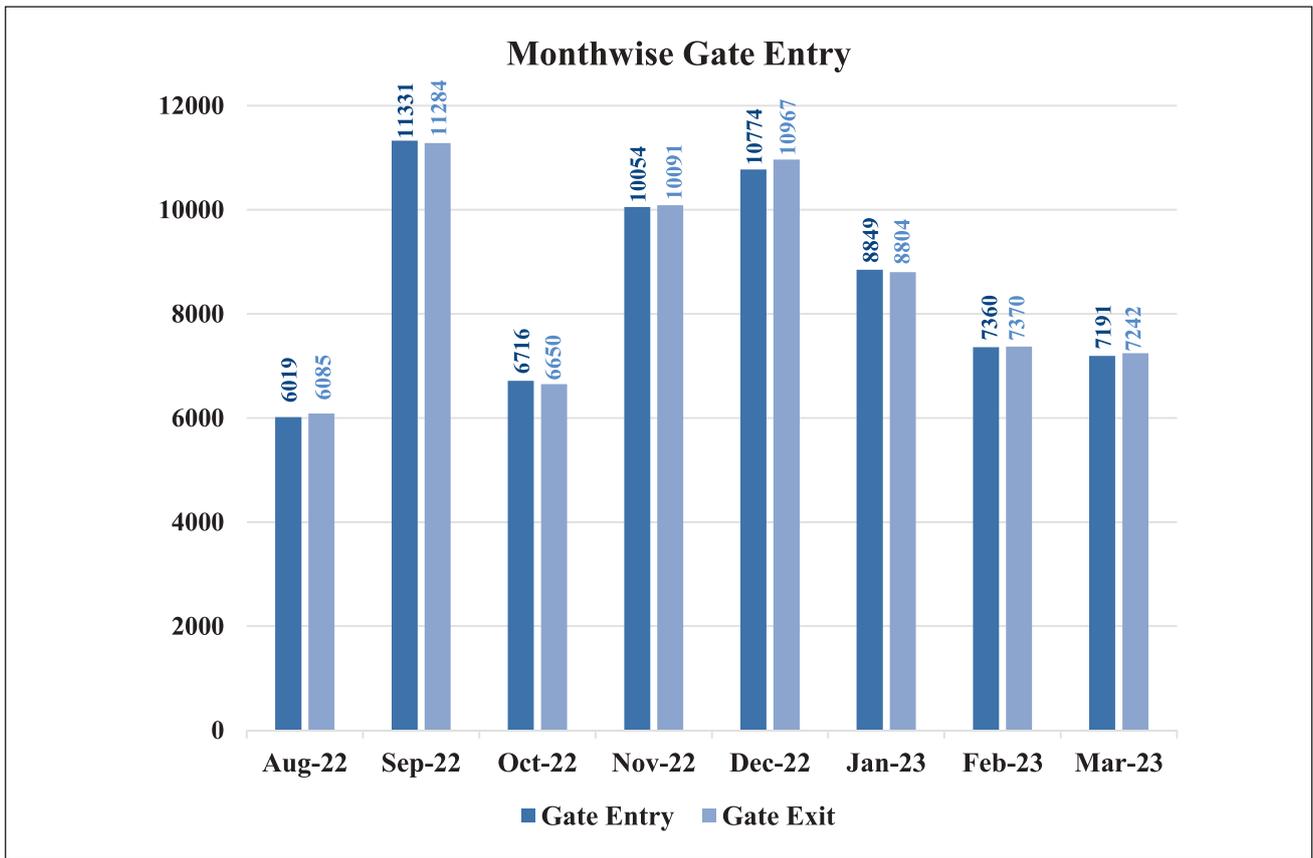

The data pertaining to issue/return of books and library visit for the year under report is given below in the following histograms:

Research Review by Swami Rama Himalayan University Scientists published in prestigious journal 'Food Production, Processing and Nutrition'

By OUR STAFF REPORTER

DEHRADUN, 2 Aug. A review of the research work by a team of scientists from Swami Rama Himalayan University has been published in the renowned journal, 'Food Production, Processing and Nutrition'. The review titled 'Probiotic mediated significance, challenges, and future perspective - a mini review' was published on 1st August 2022.

Headed by Dr. Vijay Kumar, Assistant Professor at the Himalayan School of Biosciences SRHU, the research work deals with the health benefits associated with probiotics. The other members of the team include Bhanu Nish, Naveen Khundri, Suresh Bhatnagar and Sangeeta Kumar.

'Food Production, Processing and Nutrition' is a prestigious journal known for its scholarly articles related to the food industry that influence nutrition and health of people at large. The journal provides a distinctive contented forum for publication of the 'highest quality and best research' in the field.

Articles printed herein relate to both 'fundamental research' and 'applied areas' that can guide eventually in food production, variety improvement and selection as well as green processing. Food safety, handling and contamination, and retention of nutrients and bioactive components that play a role in health promotion of consumers, are important aspects that the publication broadly publishes. This aspect, production technologies, absorption, bioavailability and personalized nutrition with consideration of gut microflora are of particular interest to the journal. Results or findings are only accepted for printing in the journal research and reviews if they conform to review standards.

Explaining the objective of the research, Kumar states that, 'The health benefits associated with probiotics have increased their application in pharmaceutical formulations and functional food development. High production of probiotics requires a cost-effective production method and nutrient media optimization. The biomass production of probiotics can be enhanced, by optimizing growth parameters such as substrate, pH, inoculum time, etc.'

For economical industrial production of probiotics, it is required to design a new medium with low cost. Wastes from the food industries are promising substrates for the development of the low-cost medium. Industrial wastes such as 'cheese whey' and 'corn steep liquor' are excellent examples of viable sources of nitrogen for the biomass production of probiotic bacteria. The increased yield of bio-mass reduces the cost of production.'

This review focuses on the importance of probiotic media for biomass production and its challenges.

Introduction: When food is insufficient to meet the basic health demands of the body, it can be fulfilled through alternative methods using pills, powders, or other supplements. In earlier times, the food quality was improved biologically. The Bifidus and Clostridia were used for the production of fermented products. One of the common examples in this category is curd, which is considered the most important source of probiotics and is globally consumed. It is prepared by using Lactobacillus bacteria. This bacterium not only helps in the formation of curd but also positively affects the health of the gut and is extremely helpful in reducing the risk of diseases. Several scientific findings establish a positive relationship between probiotics and human health. FPO and WPC defatted probiotics as 'Live microorganisms, when administered in sufficient amounts provide a health benefit to the host'. Lactic acid bacteria (LAB) are commercially employed as food additives in dairy products and fruit juices. They alter the dynamics of the microbial community in the digestive system of the host by balancing the quantity of good and harmful microflora. They also help to manage gastrointestinal diseases.

Probiotics: The term 'probiotic' was initially proposed by Lilly and Stillwell which in Greek means 'for life'. The term was coined in contrast to the word 'anti-biotic' which means a substance produced by one microbe to kill another. Probiotics are a group of microbes associated with food to enhance their nutritional value and maintain gut health. They are highly promoted for their ability to support gastrointestinal health and strengthen the immune system. Currently, the consumption of probiotic calls via food products is in high demand. Probiotics are also considered functional foods. Functional foods are defined as foods that look like traditional foods yet have established physiological benefits. Functional food components include prebiotics, probiotics, vitamins, and minerals.

SRHU partners with SDC to work on 'Citizen Centric Issues'

By OUR STAFF REPORTER
DEHRADUN, 6 Aug. 'Citizen Centricity', aiming at ensuring 'sustainable development' is central to any society.
 A MoU with the aforementioned aim was formally signed between Swami Rama Himalayan University and Social Development Foundation (SDF) on 6 Aug 2022.
 As per the provision of the MoU, the initiative will work on 'Citizen Centric Issues' such as environment, health and education with chief focus on research and academic and also of sustainable development. Registrar, SRHU, Dr. Sudhakar Sharma, and Executive SDC Anoop Nayal put ink to the MoU in the presence of VC, Dr. Vijay Dhasmana and Dr. Rajendra Dohal.
 Elaborating upon the initiative, Dr. Dhasmana said, "Citizen centric philosophy in the context of sustainable development has always been an integral part of SDF's. Service to the citizens has always been our guiding light. We have over the years endeavored to associate with the champions for change and demonstrate excellence in delivering services that can have a positive impact on people's lives. In doing so, we have been the catalysts of the government and re-educate the trust

of the general populace to public service. With the signing of this MoU, we aim to better interact with the citizenry and augment its sense of collaboration."
 "Barriers in the above process such as indifferent attitude of public servants, lack of accountability, red tapism, low levels of awareness of the rights and duties of citizens and ineffective implementation of laws and rules would be dealt with in a participatory manner with chief focus on delivering services to the citizen. This is where our heart is," Dr. Dhasmana further explained.
 "We have plans to work on areas of sustainable development including climate change, waste management, circular economy, sustainable urbanisation, rural development and citizen engagement," asserted Anoop Nayal.
 "We will work to promote scientific temper and undertake social audits on citizen significant issues. The findings from such audits will be used to aid the policy formulation process in the state of Uttarakhand. We will work together to develop technology for building social solutions. Significantly we will be working on central schemes such as Swachh Surakshit, Smart City Mission, National Green and Blue. Further we will be exploring opportunities for joint bidding for consultancy assignments as members of a consortium," he added.

By OUR STAFF REPORTER
DEHRADUN, 25 Aug. Himalayan Institute Hospital Trust, in collaboration with the Swami Rama Himalayan University has initiated a grand scale Green Initiative, under the leadership of Vice-Chancellor Dr. Vijay Dhasmana, for the conservation of water within the campus.
 Technical expertise of 'Uttarakhand Keep Max' IIP Unangan team sought for the project. The initiative is an initiative to conserve water within the campus. The initiative is an initiative to conserve water within the campus. The initiative is an initiative to conserve water within the campus.

After three months of meticulous planning and construction of the water project, a whopping amount of about 2 crore litres of rainwater is now being collected, stored and reused for non-potable purposes like toilet flushing, cleaning and general water recharge.
 3000 square metres of roof top area of the Nursing College, Medical College and HCU Building at SRHU and IIP campus have been prepared to collect roof top rainwater. One lakh fifty thousand litres of water collected, this is treated and filtered through a central process with the help of Ultraviolet Roop method, for which Unilux was selected the National Urban Water 2008 Award. This water is collected in a 1.5 lakh litre 'Storage Tank', which is completely underground. In accordance with futuristic developmental plans a garden with a fountain will be developed and maintained on top of this tank.
 Emerging continuity of water supply is crucial for the sustainable functioning of the system. The water collected in 1.5 lakh storage tank will be supplied in different buildings for flushing and cleaning and will be sufficient for 365 days. It will cover to 111 toilets and 136

Governor flags off advanced ambulance for newborns

PNS ■ DEHRADUN
 The governor lieutenant general (ret'd) Gurmit Singh flagged off the Advanced Neonatal Transport Ambulance (ANTA) developed by the Himalayan Institute of Medical Sciences at Raj Bhaswan on Tuesday. The ambulance would help in treatment and care of the new born babies.

Speaking on the occasion, the governor said that the ambulance equipped with advanced features would help in meeting the challenges related to the new born babies. He said that the Himalayan Institute has taken an appreciable step in the direction of providing healthcare facilities to the general public.

The vice chancellor of the Swami Rama Himalayan University Vijay Dhasmana said the ambulance will be most effective in transporting patients from peripheral remote areas, other hospitals and centers to Himalayan Institute of Medical Sciences, Dehradun and will be taking the new born babies from HIMS to specialised advanced medical centers, for any specific desired treatment.
